

JOINT CONSULTATIVE COUNCIL
FOR THE CONSTRUCTION INDUSTRY

“Economic Revitalisation through Mobilisation of the Construction Sector”

You are invited to attend a Joint Consultative Council (JCC) Seminar, at which the opening address will be presented by the Prime Minister, Dr. the Honourable Keith Rowley, MP. There will be various presentations by specialists in the Housing and Construction Industry.

The revitalization of our economy is of great concern to all of us. As the largest non-energy employer in our country, the Construction Industry can play a pivotal role in economic diversification. The optimal use of land, housing and construction, and property taxation are areas in which our sector would be best placed to contribute significantly to the continued sustainable development of our industry and our country.
